

Community Out Reach Evangelism (CORE)

Over the years CORE Ministry Training at Camp has given the High School Campers time every day at camp to learn and practice Ministry Tools along with an event in a local community park for the Campers to present what they have learned in sharing the Gospel of Jesus Christ.

CORE 2019: This year because of the location of the camp facility we are using, we won't be able to go off campus to a community park.

The High School Camper

s will still have a daily training time, but this year they will be able to present, to the rest of the camp, what they are learning **during the opening time of the Chapel Service before the message**.

The Goal of CORE Ministry Training is to equip campers to be able to share the Gospel where ever they go in their communities back home, and in their Awana Clubs. An Awana Sparks Club Bible Counsel Time is a great opportunity to do this.

CORE Ministry Training Tools

The Tools we will be developing and learning and presenting from a team format are briefly described as follows:

PRAYER: This team will collect and pray for the needs and praises of the camp. They will have a prayer box to collect input from campers and staff.

MUSIC: This team will be preparing for and leading the song and ministry service **
This team includes those persons skilled in compute, video projection, and sound.

TESTIMONIES: This team will prepare and give their individual personal testimonies **. Consider how you faith journey began and what has God been doing in your life since.

GOSPEL PRESENTATIONS: This team will practice various methods of presenting the Gospel and use role plays to demonstrate them **.

SKITS: This team selects and develop skits that demonstrate living and sharing our faith. When ready the skits are presented **.
